DocLink | Quick Deploy

Fixed parameters, cost, & timeframe means you're up & running on DocLink in 30 days!

Shorten your time to value with DocLink Quick Deploy, which delivers exactly what you need from the get-go – you'll be able to go paperless and digitize ANY of your AP documents and data

Full DocLink Solution
There's no light version with Quick Deploy, you get the full DocLink solution which allows you to search and access your data in seconds. Extend your cloud ERP - digitize your documents and data for seamless access, processing, approval, and distribution.

Predictable Cost
You'll know what you get and what it will cost from the get-go. We've designed Quick Deploy to get you up-and-running with DocLink quickly – at a reasonable fixed cost that your management can easily approve.

Guaranteed Timetable
With Quick Deploy, you'll be able to start using DocLink in just one month – guaranteed. We've combined our proven best practices in planning, implementation, and training to accelerate your time to value & ROI.

DocLink's one-of-a-kind digital repository operates as a central, virtual filing system and links related documents together using indexed data for greater visibility, accessibility, and efficiency of corporate data. Unlike AP automation solutions, DocLink can store and manage ANY type of document and has the robustness to automate manual business processes in every department within your organization. Extending your ERP with DocLink results in faster approvals, less data entry, and reduced human errors for significant time and cost savings.

What you get with Quick Deploy
