

a world of energy

June 03, 2024

I am pleased to announce the promotion of Anshul Mathur to the position of Vice President – Supplier and Corporate Strategy, reporting directly to me. In this role, Anshul will oversee our Supplier strategy, encompassing supplier programs, partner collaborations, and ESG initiatives. He will also collaborate closely with me on a diverse range of initiatives aimed at enhancing our current strategy and preparing Rexel Canada for future challenges. Anshul will remain in the role of GM of Nedco West until further notice and will transition back to Toronto upon the completion of onboarding a new Nedco Western Canadian General Manager.

Prior to joining our organization, Anshul worked as an electrical engineer at Worsley Parsons and Hydro One, further enriching his expertise. His proven track record, dedication, and strategic vision will undoubtedly drive our organization to new heights. We look forward to the continued success and contributions Anshul will bring in his new role.

Anshul brings a wealth of experience to this role, having most recently served as the General Manager of Nedco West. Anshul is a graduate of the University of Windsor with a degree in Electrical Engineering, holds a Master of Business Administration from the Rotman School of Management, and is a CFA charterholder. He has excelled in various roles within our organization, including leading our International Projects Group and playing a pivotal role in the early stages of Westburne Renewables.

Over the coming weeks, Danny Buchanan will be organizing a session for you to formally meet and introduce your organization to Anshul. We thank you for your patience during his transition.

A handwritten signature in blue ink that reads "J. Moyle".
