Please Join GHA by Promoting #MaskUpGA

The Georgia Hospital Association invites you and your members to wear masks as part of #MaskUpGA, a campaign to encourage all Georgians to make the choice and commitment to wear masks when in public settings and to social distance when possible to help slow the spread of COVID-19.

The purpose of this campaign is to encourage organizations, businesses, and individuals to post on social media pictures or videos of themselves wearing masks and to accompany these posts with #MaskUpGA and a message about why they choose to "mask up."

Like seatbelts and child car seats, wearing a mask is a public safety solution that will help ensure everyone's wellbeing by stopping the spread of COVID-19.
