

**July 14, 2023**

## **Weekly Situational Awareness Brief**

### **Awareness Topics**

#### **HCA Healthcare Reports Data Security Incident**

"This appears to be a theft from an external storage location exclusively used to automate the formatting of email messages. There has been no disruption to the care and services HCA Healthcare provides to patients and communities. This incident has not caused any disruption to the day-to-day operations of HCA Healthcare. Based on the information known at this time, the company does not believe the incident will materially impact its business, operations or financial results."

## **Arizona fake nurse convicted, sentenced to state prison**

“Pamela O’Guinn, 58, was sentenced to five years in prison followed by three years of supervised probation for creating the false identity of a nurse practitioner in Arizona despite not having a nursing license in the United States.”

## **Kidney stones are rising among children and teens, especially girls, research shows**

“Thirty years ago, kidney stones were considered a disease of the middle-aged white man. Now doctors are increasingly seeing a different kind of patient suffering from the extremely painful condition, especially during summer.”

## **National Assessment of Pediatric Readiness of US Emergency Departments During the COVID-19 Pandemic**

“Children represent approximately 25% of all emergency department (ED) visits, yet prior studies have highlighted variable readiness of EDs to meet the needs of children.”

## **Surgeon general advisory: Social media linked with mental health harm to teens**

“Social media can pose a “profound risk” to the mental health and well-being of children and teens, according to new advisory from the U.S. surgeon general.”

## CDC to Reduce Funding for States' Child Vaccination Programs

"The Centers for Disease Control and Prevention is reducing funding to states for child vaccination programs, according to an agency email obtained by KFF Health News."
