Tell us about your infection control needs.

Georgia Project Firstline (GPFL) is helping health care workers understand the 'why' behind infection prevention recommendations and best practices. GPFL's mission is to support the advancement of infection prevention and control practices in the health care system. **Please encourage all health care workers to complete this [Learning Needs Assessment Survey](#).**

<https://www.surveymonkey.com/r/PFLNA>

Have an infection prevention question? Connect with your region's [Infection Prevention and Control Education Expert](#) (IPCEE). IPCEEs are providing free infection prevention

education and resources to individuals working in infection prevention. Empower your health care workers to think critically about infection control by using [CDC's Project Firstline free resources](#).
