

# Georgia Project Firstline

Did you know that [germs live in water and grow in our pipes](#)? Connect with Georgia's [Infection Prevention and Control Education Experts \(IPCEE\)](#) and learn best practices in [water management](#). IPCEEs are sharing best practices, education, and [resources](#) to support people working in infection prevention.

## We want to learn about your infection control needs.

Georgia Project Firstline (GPFL) is helping health care workers understand the 'why' behind infection prevention recommendations and best practices. GPFL's mission is to support the advancement of infection prevention and control practices in the health care system. **Please encourage all health care workers to complete this [Learning Needs Assessment Survey](#).**

<https://www.surveymonkey.com/r/PFLLNA>

Take advantage of CDC's Project Firstline free resources, which are [designed to empower health care workers](#) to think critically about infection control.
