

Webinar: Telehealth Policy Update and Overview – Iowa

Speaker:

Jonathan Neufeld, PhD, Director at gpTRAC (*Great Plains Telehealth Resource & Assistance Center*)

When: March 17, 2023 @ 11:00 am (Central)

Length: 1 hour

Description: This webinar will review recent changes in telehealth policy at both the federal and state level, including the current status of the Public Health Emergency (PHE), policies that are and are not affected by the end of the PHE, and developments in various interstate licensure compacts that are growing rapidly. Additionally, a review of the current policies and any recent Medicaid updates will be included. Time is planned at the end for questions and discussion.

Webinar objectives:

1. Participants will understand key regulatory issues for telehealth programs
2. Participants will recognize various types of regulatory changes and the timeframes in which they occur
3. Participants will know the current status of regulatory flexibilities and changes, and how these relate to their telehealth program

Who should attend: Telehealth providers, program administrators, clinic/hospital managers, billing/other support staff, and regulators
